

# Truck & Car Tyres

## Overview

Tyres for Trucks and Busses

### ENDU Trax MA

Long Life ON/OFF all wheel and trailer tyre with excellent grip and high uptime

#### Maximum utilization of treadrubber in rough terrains

- Cut & chip resistance
- Improved cut and chip resistance laboratory results, when comparing mixed against regional compound

#### Excellent grip and control

- Notches on shoulder & deep block dual sipes
- Illustrate/explain benefit of notches and deep block dual sipes versus RA

#### Enhanced impact resistance & multiple retread potential

- Extra cushioning between tread & belts
- Cushioning rubber + NSD difference compared to regional all wheel

### ENDU Trax MD

ON/OFF Drive tyre with high impact resistance with excellent traction for maximum uptime

#### Higher resistance to impact & stone drilling

- 14 % extra cushioning between tread and belt
- Stone ejectors

#### Higher resistance to cut & chip

- New generation ON & OFF cut and chip resistant road compound
- 17 % higher resistance to cut expansion higher tear strength
- 180 % higher resistance to tear

#### Excellent mileage & traction

- 5 % higher rubber contact
- Enhanced tread rigidity

### ENDU Race RA

Regional all wheel tyre for rated loads with superior handling at lowest cost

#### Superior handling

- Tread designed for precise and quick steering response
- Superior directional stability

#### Low cost of operations

- Highest tread depth
- Highly reinforced

#### Multiple retreads

- Highest percentage of 2nd retreads

Tyres for Cars & Vans

### Apterra HT2

The Apterra HT2 is designed to provide a silent and comfortable drive

**Longer service life**

- Wear resistant tread compound
- Enhanced wear life

**Highly comfortable even on rough roads**

- Specially designed tyre contour & construction
- Superb dry and wet grip for faster braking

**Excellent safety during high speed driving and braking**

- High quality rubber compound with unique tread pattern design
- Low on noise even after wear

### Altrust

The highly durable Altrust is built to run for long hauls while offering excellent level of safety, comfort and improved fuel efficiency

**Unmatched durability**

- Re-inforced construction
- Joint-less cap ply for better durability at high load and high speed

**Hassle-free long life**

- Robust design
- Wider contour profile for high load carrying capacity and structural capability

**Enhanced performance**

- Premium tread compound
- High tensile strength tread compound for enhanced resistance to punctures, cuts & chips

### Amazer 4G Life

High durability, improved life, improved braking and enhanced resistance toward punctures

**Long life with very low cost per kilometre**

- Ultra high wear resistant tread compound
- 100000+ km tyre life

**Long usable life**

- Robust cavity design
- Impact resistance and structural durability on bad roads

**Relief from tension of tyre puncture**

- Micro puncture technology
- Superior resistance to nail penetration
