Cutting Tools

Landscaping and Fencing Tools

Watering and Irrigation Tools

*Spear & Jackson*  
Since 1760

**Spear & Jackson has been selling hand, garden, contractors, agricultural and landscaping tools since 1760, combining traditional production methods with the latest manufacturing technology.**

**The company was founded in the City of Sheffield which is famous for the production of steel, cutlery and hand tools and continues to be our home over 250 years later.**

**James Neill** formed his own company in 1889, adopting the **Eclipse** brand name. Initially manufacturing steel, he moved on to manufacture machine knives, woodworking tools and hacksaw blades, for which the company is best known.

The **Spear & Jackson** range developed independently of our Eclipse branded products until 1985 when James Neill acquired the Spear & Jackson group, subsequently renaming ourselves as Spear & Jackson.

The Spear & Jackson brand is probably best known in the UK for our **unparalleled offering of quality** ranges of garden, digging and cultivating implements, along with **garden cutting tools** such as secateurs, loppers and shears, all of which are designed to appeal to all levels of garden expertise and budget.

As you would expect with over **250 years of experience**, the Spear & Jackson ground work product offering has widened to accommodate natural product extensions such as contractors shovels

and rakes, agricultural tools including slashers, billhooks, manure forks and landscaping products such as club and sledge hammers and fencing tools.

Spear & Jackson hand tools developed alongside our ground work ranges and include tools for DIY and professional use, with our **market leading** "Predator" branded hard-point woodsaws being the first range to be application lead, giving users the most appropriate saw for the task.

We also sell a wide range of builder's tools and accessories with prices and qualities to suit **all levels of expertise** including the well-known **Tyzack** range of professional bricklaying and plasterer's tools.

The Spear & Jackson hand tools offering is completed by a comprehensive choice of hammers and marking and measuring tools.

Spear & Jackson UK is a division of the wider **Spear & Jackson Group**, which also includes brands such as

Moore & Wright, Eclipse Magnetics, Bowers, Baty and Robert Sorby within it's other divisions.

We moved into our present 10 acre head office site in 1997. Our 97,000 square foot warehouse despatches our range of over 3500 tools to both our export customers and over **2500 UK delivery points** every week from over 6000 assorted stock locations using both our own transport and national carriers.

We also have sites in North America, France, China, New Zealand and Australia.

Throughout development of the Spear & Jackson brand, the company has always continued to innovate both in terms of **new ideas & applications**, using new technologies and combining new and traditional materials to create reliable, superb quality, highly functional tools at affordable prices, creating our enviable reputation as a supplier of tools to trust.

# Dutch Pattern Digging Tools

## Digging & Cultivating

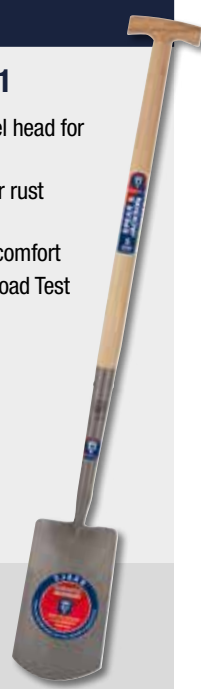

The Spear and Jackson Neverbend and Sovereign Dutch Pattern Tools range of digging and draining spades, offers you the right spade for the individual task at hand.

### 1041AR/10

#### Garden Spade No. 1

- Solid forged carbon steel head for strength and durability
- Clear lacquered head for rust resistance
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

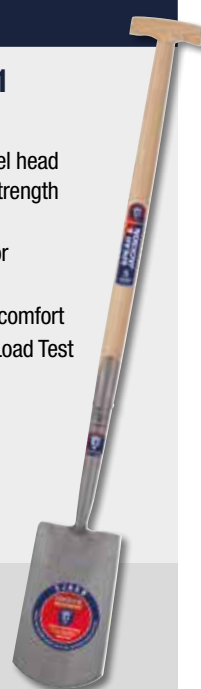

#### Product Specifications

- Head size: 276 x 163mm
- Lift on head: 60mm
- Handle length: \*914 x 38mm diameter \*including socket

### 1041FT/10

#### Garden Spade No.1

- Sovereign Range
- Solid forged carbon steel head with lipped socket for strength and durability
- Clear lacquered head for rust resistance
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

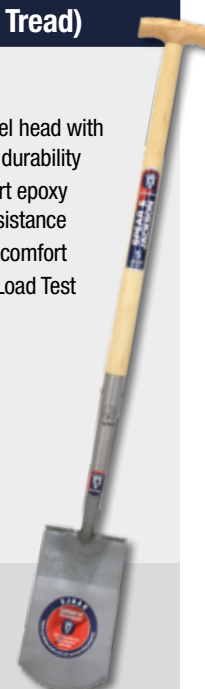

#### Product Specifications

- Head size: 276 x 163mm
- Lift on head: 60mm
- Handle length: \*914 x 38mm diameter \*including lipped socket

### 1041TRD/10 (with Tread)

#### Garden Spade

- Solid forged carbon steel head with treads for strength and durability
- Clear lacquered and part epoxy coated head for rust resistance
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

#### Product Specifications

- Head size: 276 x 163mm
- Lift on head: 60mm
- Handle length: \*914 x 38mm diameter \*including socket

### 1042AV/10

#### Garden Spade No.2

- Solid forged carbon steel head for strength and durability
- Clear lacquered head for rust resistance
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

#### Product Specifications

- Head size: 284 x 179mm
- Lift on head: 65mm
- Handle length: \*914 x 38mm diameter \*including socket

### F1043NH/10

#### Garden Spade

- Solid forged carbon steel head for strength and durability
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

#### Product Specifications

- Head size: 276 x 163mm
- Lift on head: 65mm
- Handle length: \*914 x 38mm diameter \*including socket

# Dutch Pattern Digging Tools

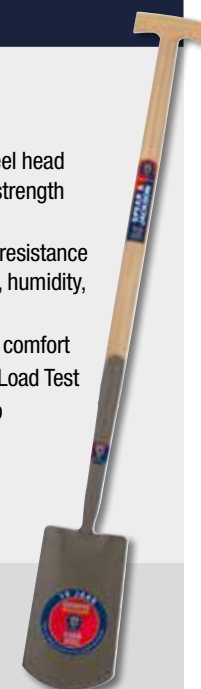

## Digging & Cultivating

The Dutch Pattern Digging Tools range of spades is available with either forged and polished blades or grey epoxy-coated blades. All tools in the range are fitted with weatherproof ash stems and comfortable forged handles.

### 1043GL/10

#### Garden Spade

- Sovereign Range
- Solid forged carbon steel head with lipped socket for strength and durability
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

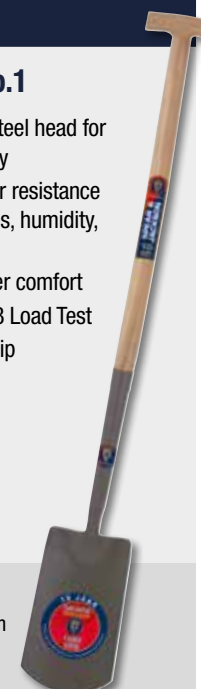

#### Product Specifications

- Head size: 276 x 163mm
- Lift on head: 65mm
- Handle length: \*914 x 38mm diameter \*including lipped socket

### F1043RS/10

#### Garden Spade No.1

- Solid forged carbon steel head for strength and durability
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

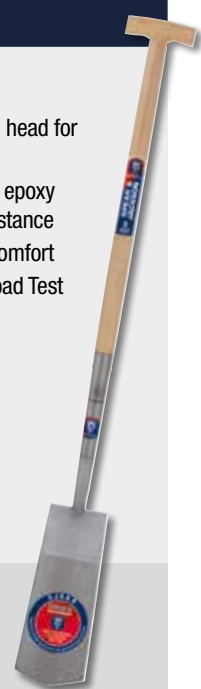

#### Product Specifications

- Head size: 276 x 163mm
- Lift on head: 65mm
- Handle length: \*914 x 38mm diameter \*including socket

### 1044AN/10

#### Draining Spade

- Solid forged carbon steel head for strength and durability
- Clear lacquered and part epoxy coated head for rust resistance
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

#### Product Specifications

- Head size: 327 x 127mm
- Lift on head: 70mm
- Handle length: \*914mm x 38mm diameter \*including socket

### 1044TRD/10

#### Draining Spade

- Solid forged carbon steel head for strength and durability
- Clear lacquered and part epoxy coated head for rust resistance
- Wooden T grip for user comfort
- Easily passes BS3388 Load Test
- 127mm(5") wide T grip

#### Product Specifications

- Head size: 327 x 127mm
- Lit on head: 70mm
- Handle length: \*914 x 38mm diameter \*including socket

### 1160EK/10

#### Dutch Digging Spade

- Mirror polished stainless steel head for rust resistance, minimal soil adhesion, and easy clean
- 127mm Wide wooden T grip for user comfort
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 290 x 178mm
- Lift on head: 80mm
- Handle length: \*900 x 38mm diameter \*including socket

# Professional Spades and Shovels

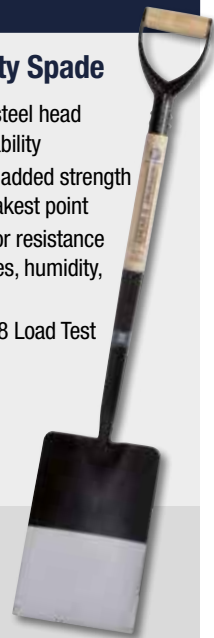

The Spear and Jackson Neverbend Professional range of solid-forged spades and forks are specially designed to be hard wearing. These tools have solid-forged carbon steel heads and sockets and double riveted lip sockets for extra strength front and side on selected lines.

## 1307CTP

### Huaco Heavy Duty Spade

- Solid forged carbon steel head for strength and durability
- Extra long socket for added strength at the potentially weakest point
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Easily passes BS3388 Load Test
- Metal YD hilt

#### Product Specifications

- Head size: 315mm x 200mm
- Lift on head: 96mm
- Handle length: 711mm including socket
- Handle diameter 38mm

## 1070AK

### Digging Spade

- Neverbend professional solid forged carbon steel head and socket
- Long lipped socket, riveted for extra strength
- Hammer finish epoxy coated head for resistance to rust, scratches, humidity, and alkalis in the soil
- Weatherproofed ash wood shaft for greater durability
- MYD handle
- Easily exceeds BS3388 load test

#### Product Specifications

- Overall length: 990mm
- Handle length: 711mm
- Handle diameter: 38mm
- Head size: 292mm x 187mm
- Hardness: 37-45 HRC
- Weight: 2.54kg

## 1071AL

### Treaded Digging Spade

- Neverbend professional solid forged carbon steel head and socket
- Treaded for more comfortable digging
- Long lipped socket, riveted for extra strength
- Hammer finish epoxy coated head for resistance to rust, scratches, humidity, and alkalis in the soil
- Weatherproofed ash wood shaft for greater durability
- MYD handle
- Easily exceeds BS3388 load test

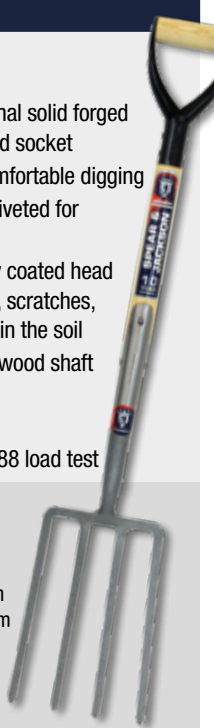

#### Product Specifications

- Overall length: 990mm
- Handle length: 711mm
- Handle diameter: 38mm
- Head size: 292 x 187mm
- Tread width: 11mm
- Hardness: 39-47 HRC
- Weight: 2.40kg

## 1570AL

### Digging Fork

- Neverbend professional solid forged carbon steel head and socket
- Treaded for more comfortable digging
- Long lipped socket, riveted for extra strength
- Hammer finish epoxy coated head for resistance to rust, scratches, humidity, and alkalis in the soil
- Weatherproofed ash wood shaft for greater durability
- MYD handle
- Easily exceeds BS3388 load test

#### Product Specifications

- Overall length: 990mm
- Handle length: 711mm
- Handle diameter: 38mm
- Head size: 294 x 195mm
- Tread width: 11mm
- Hardness: 39-47 HRC
- Weight: 2.37kg

## 2422NB

### Root Breaker

- Neverbend professional heavy duty forged carbon steel
- Tubular steel shaft
- Tilted ergonomic hilt for easier use

#### Product Specifications

- Overall length: 1160mm
- Handle length: 800mm
- Handle diameter: 33mm
- Head size: 360 x 100mm
- Hardness: 42 HRC
- Weight: 2.55kg

## 1307HDS

### Heavy Duty Spade

- MYD handle with hard wood grip
- Oversized solid forged carbon steel head and socket
- Part polished blade
- Weatherproofed hard wood shaft for durability

#### Product Specifications

- Head size: 305 x 200mm
- Socket size: 300mm
- Handle length: 711mm
- Handle diameter: 38mm
- Overall length: 1020mm
- Weight: 2.8kg
- Hardness: 37-45 HRC

# Professional Spades and Shovels

The Neverbend Professional range of spades and forks all exceed BS3388 load tests and are ideal for use in the most demanding environments.

## 1027AY

### Gum Spade

- Solid forged carbon steel head
- Epoxy coated for reduced soil adhesion
- Tubular shaft
- MYD handle

#### Product Specifications

- Head size: 285 x 185mm
- Handle length: 711mm
- Handle diameter: 32mm
- Overall length: 985mm
- Weight: 2.5kg
- Hardness: 37-45 HRC

## 1048BR

### Dominion Spade Size 2

- LK Handle
- Fully polished solid forged steel blade
- Weatherproofed shaft for durability

#### Product Specifications

- Head size: 285 x 183mm
- Handle length: 1220mm
- Handle diameter: 35mm
- Overall length: 1520mm
- Weight: 2.39kg
- Hardness: 39-47 HRC

## 1047MY

### Rabbiting Spade

- Ideal for digging fence post holes and planting sapling trees
- Epoxy coated head for reduced soil adhesion
- Heavy duty metal hilt
- Weatherproofed hardwood shaft for durability

#### Product Specifications

- Head size: 273 x 130mm
- Socket length: 320mm
- Handle length: 780mm
- Handle diameter: 36mm
- Overall length: 1045mm
- Weight: 1.75kg
- Hardness: 37-45 HRC

## 1175AE

### Digging Spade

- Solid forged carbon steel head for strength and durability
- Tubular steel handle rotary welded to socket to ensure perfect alignment of weld
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Plastic YD hilt
- Easily passes BS3388 Load Test

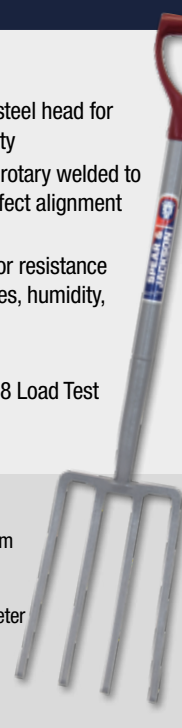

#### Product Specifications

- Head size: 285 x 179mm
- Lift on head: 85mm
- Handle length: \*711 x 31.75mm diameter \*including socket

## 1575AN

### Digging Fork

- Solid forged carbon steel head for strength and durability
- Tubular steel handle rotary welded to socket to ensure perfect alignment of weld
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Plastic YD hilt
- Easily passes BS3388 Load Test

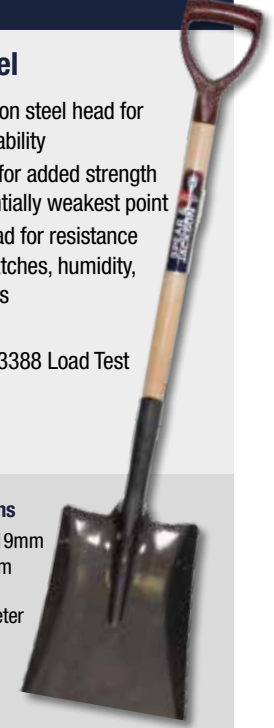

#### Product Specifications

- Head size: 325 x 210mm
- Lift on head: 100mm
- Handle length: \*711 x 31.75mm diameter \*including socket

## 2102EN

### Railway Shovel

- Solid forged carbon steel head for strength and durability
- Strapped socket for added strength at the tools potentially weakest point
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Metal YD hilt
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 283 x 219mm
- Lift on head: 110mm
- Handle length: 813 x 38mm diameter

# Professional Spades and Shovels

Our solid forged shovels all easily exceed BS3388 load tests and are ideal for use in the most demanding environments.

## 2601CC

### Coffee Shovel

- Made to order
- Open socket broad head shovel
- Weatherproofed ash handle with MYD hilt

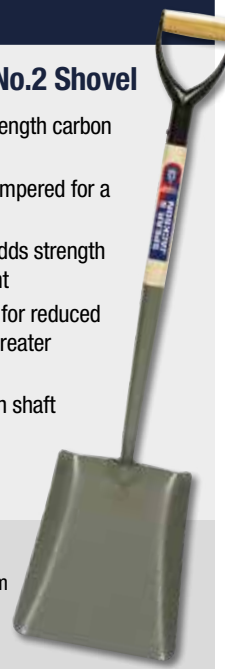

#### Product Specifications

- Blade size: 385 x 350mm
- Overall length: 1090mm
- Handle length: 715mm
- Handle diameter: 38mm
- Weight: 2.85kg
- Hardness: 39-47 HRC

## 2029RW

### Square Mouth No.2 Shovel

- Made from high strength carbon manganese steel
- Heat treated and tempered for a longer life
- Extra long socket adds strength at the weakest point
- Epoxy coated head for reduced soil adhesion and greater rust resistance
- Weatherproofed ash shaft for durability
- MYD handle

#### Product Specifications

- Overall length: 990mm
- Weight: 2.5kg
- Hardness: 39-47 HRC

## 2050AV

### Fox Shovel

- Solid forged steel blade
- Round mouth
- Solid socket
- Weatherproofed hardwood shaft for durability
- PYD handle

#### Product Specifications

- Head size: 305 x 240mm
- Overall length: 990mm
- Handle length: 711mm
- Handle diameter: 38mm
- Weight: 2.04kg
- Hardness: 39-47 HRC

# Open Socket Shovels

The Spear and Jackson traditionally styled open socket shovels offer high performance. They feature a natural, comfortable grip with a responsive, lightweight feel.

## 2531UH

### Open Socket Shovel

- High quality pressed carbon steel head for longer life
- Clear polyester powder coat varnish protects against rusting
- Long knob ash handle for extra reach and comfort
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 320 x 250mm
- Lift on head: 180mm
- Handle length: \*1355mm \*including socket

## 2521EC

### 12½" Shovel

- High quality carbon steel head for longer life
- Clear polyester powder coat varnish protects against rusting
- Hardwood ash shaft for strength and comfort
- Plastic YD hilt
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 320 x 250mm
- Lift on head: 180mm lift on head
- Handle length: \*813 x 38mm diameter \*including socket

## 2521VC

### Square Mouth No.4

- High quality carbon steel head for longer life
- Clear polyester powder coat varnish protects against rusting
- Hardwood ash shaft for strength and comfort
- Plastic YD handle
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 348 x 278mm
- Lift on head: 200mm
- Handle length 711mm \*including socket
- Handle diameter: 38mm

## 2521WE

### Square Mouth No.6

- High quality pressed carbon steel head for longer life
- Clear polyester powder coat varnish protects against rusting
- Hardwood ash shaft for strength and comfort
- Plastic YD handle
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 370 x 300mm
- Lift on head: 220mm
- Handle length: \*711mm x 38mm diameter\*including socket

Spear and Jackson is not just synonymous with garden tools that appeal to all levels of gardening ability. We also offer a range of tough, hard-wearing tools specially designed for the exacting demands of farming and agricultural environments.

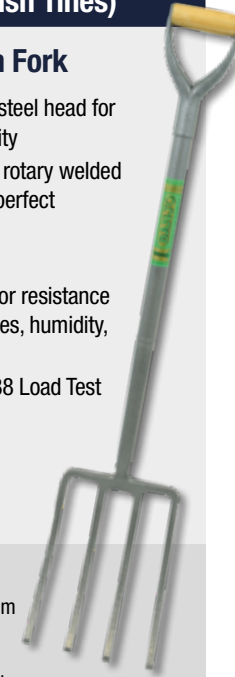

### 1635AL (Deep Dish Tines)

#### Banjo Plantation Fork

- Solid forged carbon steel head for strength and durability
- Tubular steel handle rotary welded to socket to ensure perfect alignment of weld
- Integral wooden hilt
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 336 x 235mm
- Lift on head: 140mm
- Handle length: 820 x 31.75mm diameter \* including hilt

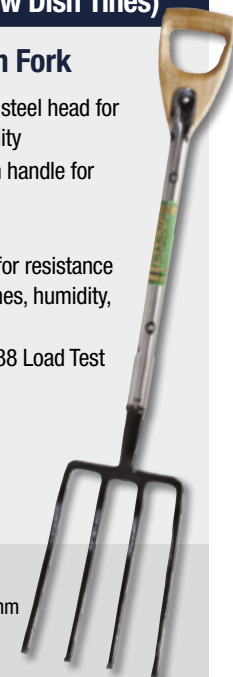

### 1702FLW (Shallow Dish Tines)

#### Banjo Plantation Fork

- Solid forged carbon steel head for strength and durability
- Strapped 5 rivet ash handle for extra strength
- Metal YD hilt
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 336 x 235mm
- Lift on head: 115mm
- Handle length: 785 x 33mm diameter \* including hilt

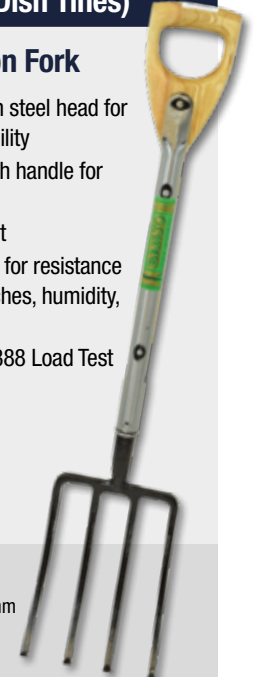

### 1631CP (Deep Dish Tines)

#### Banjo Plantation Fork

- Solid forged carbon steel head for strength and durability
- Strapped 5 rivet ash handle for extra strength
- Integral wooden hilt
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Easily passes BS3388 Load Test

#### Product Specifications

- Head size: 336 x 235mm
- Lift on head: 140mm
- Handle length: 785 x 33mm diameter \* including hilt

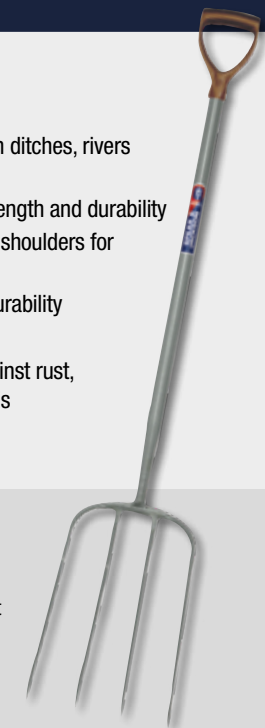

### 1636DE

#### Manure Fork PY

- For raking manure into a pile
- Also suitable for removing debris from ditches, rivers and ponds
- Solid forged carbon steel head for strength and durability
- Epoxy coated square tines and round shoulders for easier use
- Tubular steel shaft for strength and durability
- Plastic YD hilt
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis

#### Product Specifications

- Head size: 330 x 230mm
- Lift on head: 150mm
- Handle length: \*810 x 32mm\* including hilt
- Weight: 1.43kg
- Hardness: 37-45 HRC

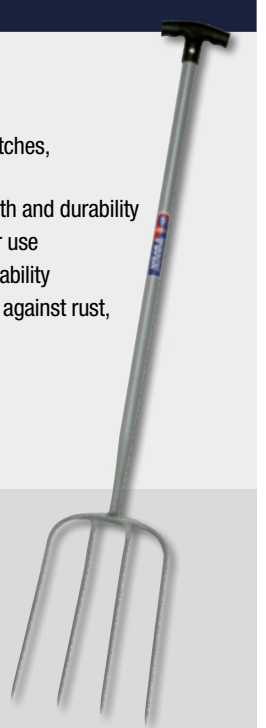

### 1636AY

#### Manure Fork PT

- For raking manure into a pile
- Also suitable for removing debris from ditches, rivers and ponds
- Solid forged carbon steel head for strength and durability
- Oval tines and round shoulders for easier use
- Tubular steel handle for strength and durability
- Epoxy coated square tines for resistance against rust, scratches, humidity, and excess alkalis
- Plastic T grip handle

#### Product Specifications

- Head size: 330 x 230mm
- Lift on head: 150mm
- Handle length: \*810 x 25mm\* including T grip
- Overall length: 1135mm
- Weight: 1.26kg
- Hardness: 37-45 HRC

Our agricultural range of manure forks are designed for raking manure into a pile for easy collection and removal. They are also suitable for removing debris from ditches, rivers and ponds.

## 1609CS

### Manure Drag LK

- Originally designed for raking manure into a pile
- Also suitable for removing debris from ditches, rivers and ponds
- Hardened and tempered forged and bent carbon steel head for strength and durability
- Cranked square tines for easier use
- Long knob ash handle for extra reach and comfort
- Epoxy coated square tines for resistance against rust, scratches, humidity, and excess alkalis

#### Product Specifications

- Head size: 140 x 165mm
- Handle length: 1830mm
- Overall length: 1970mm
- Handle diameter: 31mm
- Weight 3.24kg
- Hardness: 37-45 HRC

## 1636CU

### Tubular Manure Fork LK

- Lightweight, solid socket fork for general clearing tasks
- Solid forged carbon steel head for strength and durability
- Epoxy coated oval tines for resistance against rust, scratches, humidity, and excess alkalis
- Tubular steel shaft for strength and durability

#### Product Specifications

- Head size: 300 x 230mm
- Lift on head: 125mm
- Handle length: 1220 x 25mm
- Overall length 1550mm
- Hardness 35-43 HRC

## 1600FD

### Manure Fork T

- Solid forged carbon steel head for strength and durability
- Oval tines and round shoulders for easier use
- 127mm(5") wide T grip
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis

#### Product Specifications

- Head size: 330 x 240mm
- Lift on head: 150mm
- Handle length: \*810 x 37mm \*including socket
- Overall length: 1010mm
- Weight: 1.58kg
- Hardness: 37-45 HRC

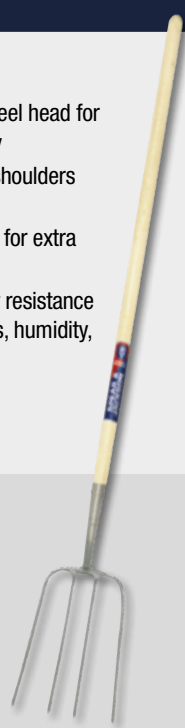

## 1600HS

### Manure Fork LK

- Solid forged carbon steel head for strength and durability
- Oval tines and round shoulders for easier use
- Long knob ash handle for extra reach and comfort
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis

#### Product Specifications

- Head size: 330 x 240mm
- Lift on head: 150mm
- Handle length: \*1220mm \*including socket
- Weight: 1.82kg
- Hardness: 37-45 HRC

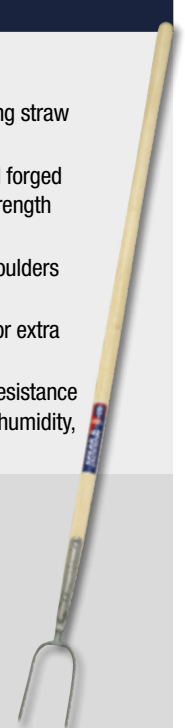

## 1602BA

### Hay Fork

- Traditional tool for moving straw bales and hay
- Hardened and tempered forged carbon steel head for strength and durability
- Oval tines and round shoulders for easier use
- Long knob ash handle for extra reach and comfort
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis

#### Product Specifications

- Head size: 242 x 140mm
- Handle length: \*1370mm
- Handle diameter: 33mm
- Weight 1.22kg
- Hardness: 37-45 HRC

The Spear and Jackson range of hay forks are traditionally used for moving and breaking straw bales and hay.

## 91159-SJ/10

### Hay Fork

- Forged steel manure fork hood and coach
- Grey epoxy coated
- Weatherproofed ash stem for durability
- Comfortable cut handle

#### Product Specifications

- Head size: 310 x 225mm
- Handle length: 850mm
- Handle Diameter: 36mm
- Overall length: 1160mm
- Weight: 1.5kg

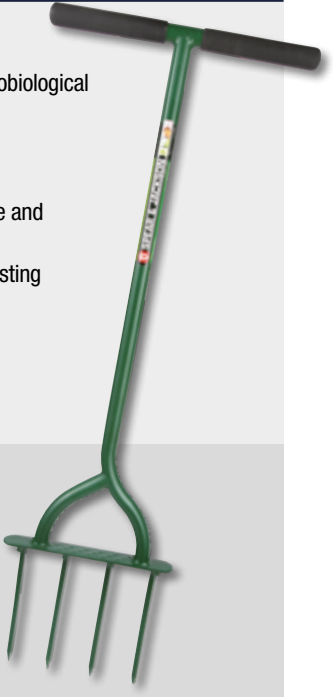

## Special Order Only

### Bio Fork

- Aerates soil easily preserving its microbiological structure
- Steel head
- Non-slip comfort grips
- Ergonomic design to reduce backache and pressure on the lower back
- Push into the soil and and make a twisting and lifting motion to break up the soil

#### Product Specifications

- Length: 1110mm
- Width: 410mm
- Weight: 2.61kg

## 92069-SJ/10

### Digging Fork

- Solid forged digging fork
- Grey epoxy coated head
- Weatherproofed ash stem for durability
- Comfortable forged handle

#### Product Specifications

- Head size: 280 x 170mm
- Overall length: 1125mm
- Handle length: 850mm
- Handle diameter: 36mm
- Weight: 1.7kg
- Hardness: 39-47 HRC

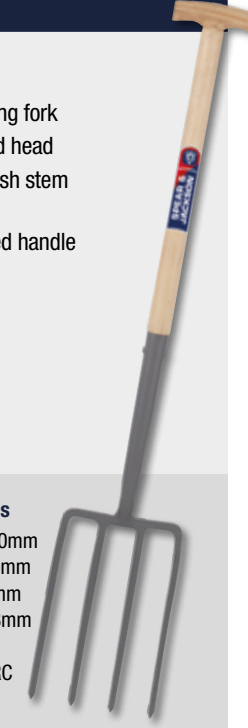

## 1660BP/10

### Digging Fork

- Solid forged digging fork
- Grey epoxy coated head
- Weatherproofed ash stem for durability
- Comfortable forged handle

#### Product Specifications

- Head size: 256 x 200mm
- Overall length: 1080mm
- Handle length: 812mm
- Handle diameter: 38mm
- Weight: 1.75kg
- Hardness: 37-45 HRC

## 1650SN (MYD Handle)

### Potato Fork

- Solid forged digging fork with extra-wide teeth
- Grey epoxy coated
- Weatherproofed ash stem for durability
- Comfortable metal D handle

#### Product Specifications

- Head size: 300 x 220mm
- Overall length: 1080mm
- Handle length: 762mm
- Handle diameter: 38mm
- Weight: 2.32kg
- Hardness: 39-47 HRC

# Agricultural Tools

## Other Tools

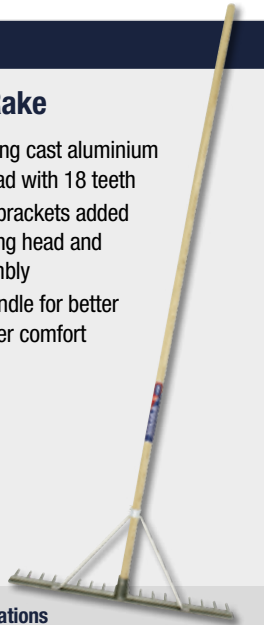

Our aluminium rake and grain shovel are specially designed to perform their unique tasks and are part of the wider Spear and Jackson plantation tools range which are all solid forged for strength.

**8206AH**

### Alloy Hay Rake

- Light but strong cast aluminium alloy rake head with 18 teeth
- Two support brackets added for extra strong head and handle assembly
- Extra long handle for better reach and user comfort

#### Product Specifications

- Head size: 85mm
- Head width: 700mm
- Handle length: 1780mm
- Handle diameter: 30mm
- Overall length: 1830mm

**2750AG**

### Grain Shovel

- Light but strong polished aluminium head
- Aluminium head means no potential rust problems going forward
- Extra large head design with 72mm (3") deep dish provides exceptionally high blade capacity
- Hardwood ash shaft for strength and comfort
- Plastic YD hilt

#### Product Specifications

- Head size: 465 x 370mm
- Lift on head: 210mm
- Handle length: \*711 mm x 38mm diameter \*including socket

**3677BA**

### Yam Spade

- Harden & tempered solid forged carbon steel head for strength and durability
- Clear lacquered head for rust resistance

#### Product Specifications

- Head size: 203mm

**3678AV**

### Tonga Field Hoe

- Hardened and tempered solid forged carbon steel head for strength and durability
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis

#### Product Specifications

- Head size: 178mm

## Plantation Tools

# Plantation Tools Machetes

Our specialist range of Machetes are all made from German steel and are hardened and tempered for strength and reliability.

## SJ270220

### 20" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

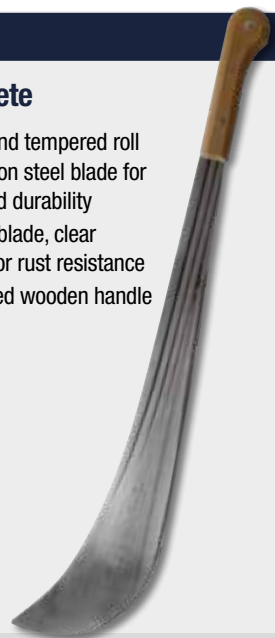

#### Product Specifications

- Head size: 508 x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

## SJ23220

### 20" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

#### Product Specifications

- Head size: 508 x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

## SJ23222

### 22" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

#### Product Specifications

- Head size: 559 x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

## SJ23016

### 16" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

#### Product Specifications

- Head size: 406 x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

## SJ23018

### 18" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

#### Product Specifications

- Head size: 457 x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

# Plantation Tools Machetes

Spear and Jackson Machetes offer a variety of solutions and are ideal for use in a range of plantation environments.

## SJ23020

### 20" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

### 18" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

#### Product Specifications

- Head size: 457 x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

## SJ2100615

### 15" Machete

- Hardened and tempered roll forged carbon steel blade for strength and durability
- Sharpened blade, clear lacquered for rust resistance
- Triple rivetted wooden handle

#### Product Specifications

- Head size: 381 mm x 2.5mm
- 2 part wooden handle
- 3 zinc plated handle rivets

# Plantation Tools

## Bill Hooks and Slashers

Our Razorsharp cutting tools include a wide variety of short and long-handled Bill Hooks and Slashers, ideal brush cutting tools for the most demanding environments.

### 4604BY (Heavy Duty)

#### Double Brush Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Oval section hardwood handle for strength and user comfort
- M6 nut and bolt head and handle assembly
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 240mm
  - Overall length: 1200mm

### 4601BT (Heavy Duty)

#### Single Brush Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Oval section hardwood handle for strength and user comfort
- Double rivet head and handle assembly
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 274mm
  - Overall length: 1200mm

### 4655BM

#### Staffs Brushing Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Profiled hardwood handle for strength and user comfort
- Single rivet head and handle assembly
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 394mm
  - Overall length: 1300mm

### 4605BU

#### Irish Slasher

- Hardened and tempered forged carbon steel blade for strength and durability
- Oval section hardwood handle for strength and user comfort
- M6 nut and bolt head and handle assembly
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 410mm
  - Overall length: 1190mm

### 4607CE (Heavy Duty)

#### Brushing Slasher

- Hardened and tempered forged carbon steel blade for strength and durability
- Oval section hardwood handle for strength and user comfort
- Double rivet head and handle assembly
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 410mm
  - Overall length: 1350mm

# Plantation Tools

## Bill Hooks and Slashers

### 4700BU

#### Fussel Bristol Reap

- Hardened and tempered forged carbon steel blade for strength and durability
- Hardwood handle for strength and user comfort
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 380mm
  - Overall length: 540mm

### 4717BT

#### John Riley Irish Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Hardwood handle for strength and user comfort
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 380mm
  - Overall length: 540mm

### 4550AP

#### Stafford Bill Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Hardwood handle for strength and user comfort
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 255mm
  - Overall length: 415mm

### 4501BZ

#### Newton Bill Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Hardwood handle for strength and user comfort
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 265mm
  - Overall length: 430mm

### 4516AZ

#### Southern Counties Bill Hook

- Hardened and tempered forged carbon steel blade for strength and durability
- Hardwood handle for strength and user comfort
- Epoxy coated blade for rust resistance

- Product Specifications**
- Blade length: 255mm
  - Overall length: 415mm

The Spear and Jackson range of Bow Saws is available in a variety of sizes and comes with spare blades for wet or dry cutting. We offer a bespoke merchandiser unit for this range.

### B9821BOWSAW

#### 21" Predator Bow Saw

- Epoxy coated tubular steel frame
- Very rapid cutting action
- Adjustable blade tensioning to maintain optimum cutting performance
- Hardened and tempered carbon steel blade
- Peg Tooth form ideal for cutting hard, dry wood
- Comfortable ergonomic hand guard incorporating soft feel, non-slip grip
- 4 PPI

#### Product Specifications

- 530mm

### B9824BOWSAW

#### 24" Predator Bow Saw

- Epoxy coated tubular steel frame
- Very rapid cutting action
- Adjustable blade tensioning to maintain optimum cutting performance
- Hardened and tempered carbon steel blade
- Peg Tooth form ideal for cutting hard, dry wood
- Comfortable ergonomic hand guard incorporating soft feel, non-slip grip
- 4 PPI

#### Product Specifications

- 610mm

### B9830BOWSAW

#### 30" Predator Bow Saw

- Epoxy coated tubular steel frame
- Very rapid cutting action
- Adjustable blade tensioning to maintain optimum cutting performance
- Hardened and tempered carbon steel blade
- Peg Tooth form ideal for cutting hard, dry wood
- Comfortable ergonomic hand guard incorporating soft feel, non-slip grip
- 4 PPI

#### Product Specifications

- 762mm

## Axes

We offer a range of traditional wooden handled axes, manufactured to the internationally recognised DIN standard. All feature hardened and tempered drop forged blades for strength and lasting sharpness.

### 3725CD/09

#### 2.5lb Axe

- Manufactured to the internationally recognised DIN standard
- Drop forged carbon steel head, hardened and tempered for durability
- Quality hickory shaft for strength
- Blade guard safety cover for when not in use

#### Product Specifications

- Overall length: 500mm
- Handle length: 485mm
- Head size: 165mm
- Head Weight: 1.5kg
- Hardness: 48-56HRC

### 3745EF/09

#### 4.5lb Axe

- Manufactured to the internationally recognised DIN standard
- Drop forged carbon steel head, hardened and tempered for durability
- Quality hickory shaft for strength
- Blade guard safety cover for when not in use

#### Product Specifications

- Overall length: 838mm
- Handle length: 845mm
- Head size: 200mm
- Head Weight: 2.44kg
- Hardness: 48-56HRC

### 3765LM

#### 6.5lb Log Splitting Maul

- Manufactured to the internationally recognised DIN standard
- Drop forged carbon steel head, hardened and tempered for durability
- Quality hickory shaft for strength
- Hooked end for moving logs easily
- Blade guard safety cover for when not in use

#### Product Specifications

- Overall length: 890mm
- Handle length: 885mm
- Head size: 210mm
- Head weight: 3.75kg
- Hardness: 48-56HRC

### 3715AB/09

#### 1.5lb Hatchet

- Manufactured to the internationally recognised DIN standard
- Drop forged carbon steel head, hardened and tempered for durability
- Quality hickory shaft for strength
- Blade guard safety cover for when not in use

#### Product Specifications

- Handle length: 380mm

# Cutting Tools

## Axes

Our selection of nylon/fibreglass handled cutting and splitting axes are lightweight but incredibly strong and are the latest additions to our range of heavy duty cutting tools.

### 7704FG

#### 400g Cutting Axe

- Hardened and tempered carbon steel blade for strength and durability
- Lightweight but strong 30% fibreglass and 70% nylon mix handle
- The handle moulding extends over and around the axe head meaning it cannot be detached even under a one tonne pull test
- Non slip soft feel handle for safety and comfort
- Supplied in a plastic case for safe storage

#### Product Specifications

- Overall length: 245mm
- Head size: 123mm
- Weight: 0.56kg
- Hardness: 46-56HRC

### 7706FG

#### 600g Cutting Axe

- Hardened and tempered carbon steel blade for strength and durability
- Lightweight but strong 30% fibreglass and 70% nylon mix handle
- The handle moulding extends over and around the axe head meaning it cannot be detached even under a one tonne pull test
- Non slip soft feel handle for safety and comfort
- Supplied in a plastic case for safe storage

#### Product Specifications

- Overall length: 355mm
- Head size: 144mm
- Hardness: 48-56HRC

### 7710FG

#### 1000g Cutting Axe

- Hardened and tempered carbon steel blade for strength and durability
- Lightweight but strong 30% fibreglass and 70% nylon mix handle
- The handle moulding extends over and around the axe head meaning it cannot be detached even under a one tonne pull test
- Non slip soft feel handle for safety and comfort
- Supplied in a plastic case for safe storage

#### Product Specifications

- Overall length: 730mm
- Head size: 160mm
- Weight: 1.48kg
- Hardness: 48-56HRC

### 7718FG

#### 1800g Cutting Axe

- Hardened and tempered carbon steel blade for strength and durability
- Lightweight but strong 30% fibreglass and 70% nylon mix handle
- The handle moulding extends over and around the axe head meaning it cannot be detached even under a one tonne pull test
- Non slip soft feel handle for safety and comfort
- Supplied in a plastic case for safe storage

#### Product Specifications

- Overall length: 810mm
- Head size: 183mm
- Weight: 2.43kg
- Hardness: 48-56HRC

# Cutting Tools

## Pruners and Scythes

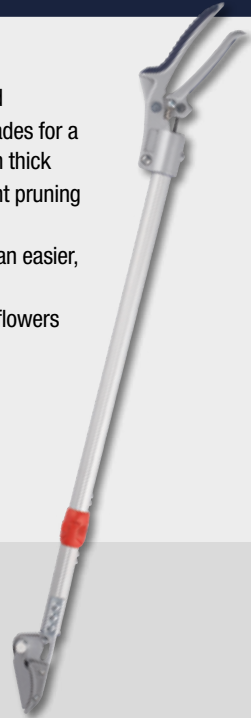

The Spear and Jackson Razorsharp range of cutting tools has been designed to satisfy the needs of the most demanding environments.

### 8200RS/09

#### Easy Reach Pruner

- Rotating body and carbon cutting head
- Durable carbon steel bypass action blades for a clean cut on green stems up to 7.5mm thick
- Lightweight long handle design for light pruning in awkward areas
- PTFE coated blade for rust resistance an easier, smoother cut
- Cut and hold mechanism for fruit and flowers

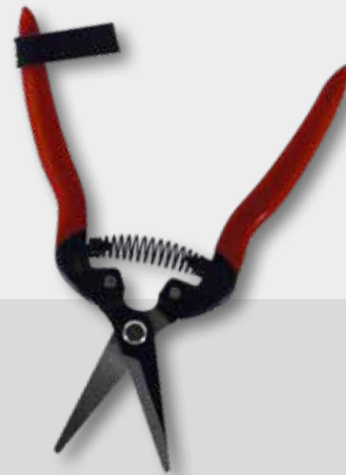

#### Product Specifications

- Overall length: 760mm
- Blade length: 68mm
- Weight: 0.47kg
- Blade hardness max: 46HRC

### 4949FP

#### Fruit Pruner

- SK5 carbon steel blades
- All metal construction for optimum strength and durability
- Complete with a leather locking strap for safe transportation and storage
- Ideal for harvesting and precision pruning of fruit bearing plants

#### Product Specifications

- Overall length: 185mm
- Blade length: 55mm
- Weight: 0.12kg
- Blade hardness max: 46HRC

### 4752SS/09

#### 12" Scythete

- 12"(305mm) replaceable blade
- Tubular steel handle
- PVC grip
- Replacement blade 4732SY

#### Product Specifications

- Overall length: 1030mm
- Handle length: 890mm
- Blade length: 327mm
- Weight: 0.94kg
- Hardness: 42-46HRC

### 4731SL/09

#### Little Giant Grass Hook

- 12"(305mm) replaceable blade
- Weatherproofed hardwood handle
- Cranked hilt for ease of use
- Replacement blade 4732SY

#### Product Specifications

- Overall length: 615mm
- Handle length: 345mm
- Blade length: 327mm
- Weight: 0.52kg
- Hardness: 42-46HRC

## Secateurs

Our Razorsharp PRO range of secateurs has been designed to meet the needs of the most discerning professional landscapers and gardeners. It features drop-forged carbon steel interchangeable blades with adjustable blade tensioning and forged aluminium handles for strength and durability.

### 6657BS

#### Short Blade Bypass Secateurs

- Drop-forged, high carbon steel blades with sap groove
- Blade notched for cutting thicker stems
- Adjustable blade tensioning for a more precise cut
- Two-step catch provides a choice of cutting widths
- Rubber shock absorbers for comfortable use

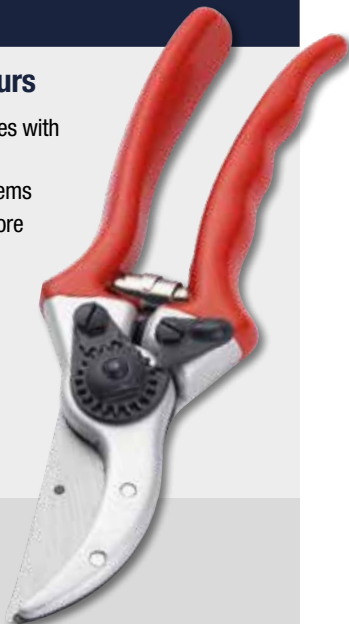

#### Product Specifications

- Maximum Cut: 20mm
- Spare blade and spring pack available for this model (6657BLADE)

### 6659BS/13

#### Heavy Duty Bypass Secateurs

- Drop-forged, high carbon steel blades with sap groove
- Notched blade for cutting thicker stems
- Adjustable blade tensioning for a more precise cut
- Two step catch providing a choice of cutting widths
- Rubber shock absorbers for comfortable use

#### Product Specifications

- Maximum Cut: 20mm
- Spare blade and spring pack available for this model (6659BLADE)

### 6959BS

#### Ergo Twist Handle Bypass Secateurs

- Drop-forged, high carbon steel blades with sap groove
- Notched blade for cutting thicker stems
- Adjustable blade tensioning for a more precise cut
- Two-step catch, providing a choice of cutting widths
- Rubber shock absorbers and ergo twist handles help to minimise fatigue and strain for more comfortable use

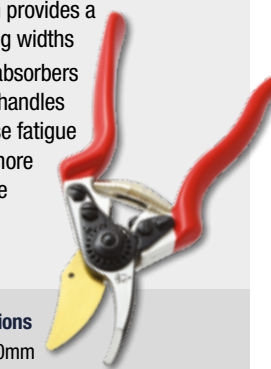

#### Product Specifications

- Maximum Cut: 20mm
- Spare blade and spring pack available for this model (6959BLADE)

### 6657TITAN

#### Titanium Coated Short Blade Secateurs

- Titanium coated blade for increased strength, rust resistance and a smoother cutting action
- Notched blade for cutting thicker stems
- Sap groove and riveted lower blade
- Adjustable blade tensioning for a more precise cut
- Two-step catch provides a choice of cutting widths
- Rubber shock absorbers and ergo twist handles help to minimise fatigue and strain for more comfortable use

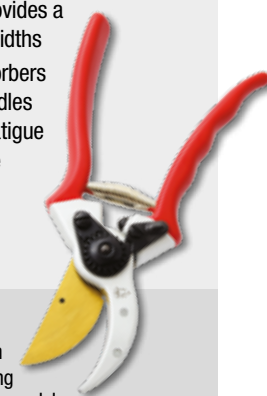

#### Product Specifications

- Maximum Cut: 20mm
- Spare blade and spring pack available for this model (6657TITANBLADE)

### 6659TITAN

#### Titanium Coated Heavy Duty Secateurs

- Titanium-coated blade for increased strength, rust resistance and a smoother cutting action
- Notched blade for cutting thicker stems
- Sap groove and riveted lower blade
- Adjustable blade tensioning for a more precise cut
- Two-step catch provides a choice of cutting widths
- Rubber shock absorbers and ergo twist handles help to minimise fatigue and strain for more comfortable use

#### Product Specifications

- Maximum Cut: 20mm
- Spare blade and spring pack available for this model (6659TITANBLADE)

# Landscaping and Fencing Post Hole Tools

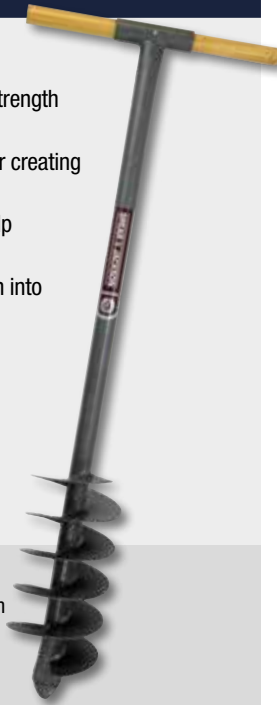

We offer a range of specialist landscaping and fencing tools. Our post hole digger will help you to create neat vertical holes by efficiently removing soil, ready for inserting fence posts.

## PHAUG

### Post Hole Auger

- 35mm diameter tubular steel T bar for strength and durability
- Carbon steel corkscrew head is used for creating straight sided post holes in the ground
- 410mm(16") wide wooden handle to help generate plenty of torque
- Hardened tip for easier initial penetration into the ground

#### Product Specifications

- Corkscrew head diameter: 380 long x 155mm
- Overall length 1105mm

## PHR5

### Post Hole Rammer

- Carbon steel body for strength and durability
- Long tubular, carbon steel handles with good knuckle clearance
- Reinforcing metal straps on closed end of body for extra strength
- Powder paint coated for rust resistance

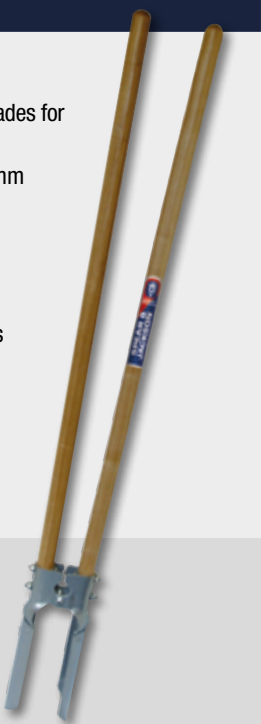

#### Product Specifications

- External diameter: 165mm
- Internal diameter: 155mm
- Handle length: 540mm
- Overall length 700mm

## PHD-WH

### Post Hole Digger

- Hardened and tempered carbon steel blades for strength and durability
- Maximum opening width of blades 140mm
- Wide wooden handles for strength and user comfort
- Designed for digging straight sided post holes in the ground
- 2 chrome plated steel bolts and locknuts on each handle

#### Product Specifications

- blade size: 230 x 123mm
- Handle length: 1120mm
- Handle diameter: 37mm
- Overall length 1470mm
- Weight: 4kg

## DSH/WH

### Post Hole Shovel

- Hardened and tempered carbon steel blades for strength and durability
- Maximum opening width of blades 280mm (11")
- Wide wooden handles for strength and user comfort
- Used for digging post holes and removing rubble
- Welded carbon steel sockets

#### Product Specifications

- Head size: 350 x 200mm
- Handle diameter: 38mm
- Overall length 1730mm
- Weight: 6.8kg

# Landscaping and Fencing Other Tools

We offer a selection of other high performance tools suitable to be used in a wide range of landscaping and fencing tasks.

## FG-HD54

### Fencing Grafter

- Solid forged carbon steel head for strength and durability
- Tubular steel handle for strength and durability
- Narrow blade is ideal for work such as digging trenches and cable laying
- Epoxy coated head for resistance against rust, scratches, humidity, and excess alkalis
- Heavy duty rubber handle end cap

#### Product Specifications

- Head size: 276 x 144mm
- Handle diameter: 33mm
- Overall length 1645mm

## RMAUL

### Rubberhammer

- Heavy duty high grade black rubber head for durability
- Ideal for striking hard objects without risk of any resulting stone or metal splintering or sparks
- Spare head also available to purchase separately (ref RMAUL-HD)
- Spare handle also available to purchase separately (ref RMAUL-HANDLE)

#### Product Specifications

- Head size: 329 x 129mm
- Handle: 1066mm

## 5000BT

### 7lb Chisel and Point

- Hardened and tempered carbon steel head for strength and durability
- Handle also available (to purchase separately) - our ref 5020AP

#### Product Specifications

- Carbon steel pick axe head only
- Chisel blade length: 275mm
- Long point: 280mm
- Overall length: 670mm

## 5002AE

### 5lb Grubbing Mattock

- Hardened and tempered carbon steel head for strength and durability
- Handle also available (to purchase separately) - our ref 5020AP

#### Product Specifications

- Carbon steel grubbing mattock head only
- Horizontal chisel blade: 180mm
- Vertical chisel blade: 130mm
- Overall length 400mm

## 5020AP

### Pick Handle

- Wooden handle to fit our ref 5000BT and 5002AE heads

#### Product Specifications

- 915mm wooden pick axe handle only

# Watering and Irrigation Pump Action Pressure Sprayers

## 2LPAPSKIT

### 6pc Set for ref 2LPAPS

- 6 piece set of spare O rings and seals to fit 2 litre pump action pressure sprayers

#### Product Specifications

- Pack size: 140 x 105 x 60mm

## 5LPAPSWOODKIT

### 13pc Set for ref 5LPAPSWOOD

- 13 piece set of spare O rings and seals to fit 5 litre Wood pump action pressure sprayers

#### Product Specifications

- Pack size: 140 x 105 x 60mm

## 58PAPSKIT

### 11pc Set for ref 5LPAPS or 8LPAPS

- 11 piece set of spare O rings and seals to fit 5 and 8 litre pump action pressure sprayers

#### Product Specifications

- Pack size: 140 x 105 x 60mm

## 15LPAPSKIT

### 19pc Set for ref 15LPAPS

- 19 piece set of O rings, seals and spare parts to fit 15 litre backpack style pump action pressure sprayers

#### Product Specifications

- Pack size: 215 x 170 x 125mm

## SPRAYERWAND

### Extendable wand for ref 5LPAPS or 8LPAPS

- Extendable wand kit for 5 and 8 litre pump action pressure sprayers for spraying harder to reach or high up planting

#### Product Specifications

- Pack size: 90 x 40 x 540mm

## BWF26

### Multi-Function Spray Gun

- A choice of seven flow functions: jet, shower, cone, mist, soaker, centre and flat
- Contoured soft grip handle over metal body for a firm comfortable grip
- Durable brass connector

# Spear & Jackson Product Packaging

Our packaging is designed to allow the customer to handle the product and explore it's functionality and features before buying.

## Try Me Packaging

We design our packaging to allow the customer to really **get a feel for the product**.

We encourage the **features** and **functionality** to be explored before buying, helping the user **choose the right product**, whilst also delivering enhanced sales for the retailer. Transparent sections of packaging allow the tool or blade to be seen, making selection easier.

# Spear & Jackson Merchandising Solutions

We have a range of merchandising solutions and point of sale materials to support all of our stockists.

Our range of merchandising and point of sale materials includes large display units, free-standing display units to fit into smaller spaces and a range of counter top and floor-standing temporary units for promotions.

Please talk to one of our Sales team about the best merchandising solutions for you.
